SUMMARY

Motivated and detail-oriented Cybersecurity Enthusiast with a strong foundation in network security, ethical hacking, and VAPT principles. Certified in Ethical Hacking, Linux, and Networking Fundamentals, with hands-on learning through platforms like TryHackMe. Passionate about identifying vulnerabilities, improving system security, and contributing to real-world cybersecurity projects while continuously enhancing skills in a professional environment.

PROJECT

AI-Enabled Cyber Threat Detection & Reporting System

Kongunadu College of Engineering and Technology · December 2025 - December 2025

· Developed an AI-enabled Cyber Threat Detection and Reporting System to reduce delays in traditional cybersecurity complaint response processes.
· Built a web-based portal where users can raise cybersecurity incident reports and receive immediate AI-assisted guidance.
· Implemented automated threat classification and response recommendations to help prevent potential security incidents.
· Designed the system to provide quick awareness instructions and safe preventive measures for users.
· Enhanced incident handling efficiency by improving response time and supporting real-time reporting.

AI-Powered Youtube Summarizer Pro

Kongunadu College of Engineering and Technology · youtube_summarizer-tamil-2.0 · June 2025 - June 2025

· Developed an AI-powered YouTube video summarizer that converts long video content into short, meaningful text summaries.
· Implemented transcript extraction and NLP-based summarization to improve content understanding.
· Built a user-friendly interface for generating quick summaries in Tamil and English.
· Integrated AI models to deliver accurate and time-saving video insights.
· Improved productivity by helping users consume video information faster and efficiently.

EDUCATION

Bachelor of Information Technology

Minor in no · Kongunadu College of Engineering in Technology

· Namakkal-Trichy Highway, Tholurpatti, Thottiyam, Tiruchirapalli, Tamil Nadu 621215, India · 2027 · 7.8
· Completed Cisco Ethical Hacker certification to build a strong foundation in cybersecurity concepts. Additionally, certified in IoT through NPTEL and trained in Frontend Development via Infosys Springboard, enhancing my technical and practical skills.

CERTIFICATIONS

Ethical Hacker

cisco · 2026

· Completed Cisco Ethical Hacker certification, gaining knowledge in ethical hacking concepts, penetration testing basics, vulnerability identification, and cybersecurity best practices.

Networking Fundamentals

TryHackMe · 2026

· Completed Networking Fundamentals certification from TryHackMe, gaining strong understanding of network concepts such as IP addressing, TCP/UDP, protocols, and how networking forms the core foundation for cybersecurity and penetration testing.

Linux Fundamentals

TryHack Me · 2026

· Completed Linux Fundamentals certification from TryHackMe, gaining hands-on experience with Linux commands, file system navigation, user permissions, and understanding Linux environments widely used in cybersecurity and penetration testing.

Frontend Developer

Infosys · 2025

· Gained strong foundation in frontend development using HTML, CSS, and JavaScript, which helps in building secure and responsive web applications.

Ui/Ux Designer

Appin Technology,Coimbatore and Nithra Apps ,Tiruchengode. · 2025

· Completed UI/UX Designer certification, gaining skills in designing user-friendly interfaces, improving user experience, and creating clean, responsive layouts for web and mobile applications.

SKILLS

1.Core Cybersecurity Skills
· Ethical Hacking Fundamentals
· Vulnerability Assessment and Penetration Testing (VAPT)
· Network Security Basics
· Threat Analysis
· Cybersecurity Awareness
2. Networking Skills
· TCP/IP Protocols
· IP Addressing and Subnetting
· OSI Model
· DNS, HTTP/HTTPS
3. Linux Skills
· Linux Command Line
· File Permissions and User Management
· System Administration Basics
4. Tools & Platforms
· TryHackMe Labs
· Basic Security Testing Tools
· Networking Troubleshooting
5. Web & Development Skills (Extra Advantage)
· HTML
· CSS
· JavaScript
· Frontend Development Basics

 Additional Skills
· Cricket Player (Team Sports & Discipline)
· Carrom Player
· Badminton Player
· Junior Typing Skills (Fast & Accurate Typing)
· Flutter Application Development (Basics)
